PLEASE TAKE CARE

It is very important that you take good care of your venison meat while in route to getting it processed.

Whether you are bringing the deer in field-dressed or quartered it is important that you keep it at the proper temperature. Ice down quarters in an ice chest and place bags of ice in the

Cavity and hinds of a whole deer. This will help ensure that you get the most out of your processing as we do

dispose of any meat we feel may have spoiled. Bloodshot meat is disposed of as well.

Please be sure that you fill out your tag completely at the site of your kill and that you keep the tag with the meat at all times. We are required to keep the tag with the meat at the time of drop-off.

*We ask that you pick up your deer as quickly as possible after notification due to limited freezer space. **All orders not picked up within 14 days of notification are charged a \$4.00 per day storage fee or donated unless special arrangements are made.***

WILD HOGS!!!!

When dealing with wild hogs we like to think of the saying "You are what you eat!" We feel this is very true with wild pork and we will no longer be able to mix it with your venison as wild pork very often can have a strong odor and in some cases an undesirable flavor.

When having sausage made we suggest mixing up to 50% domestic pork. The addition of domestic pork will add to your sausage's juiciness and flavor.
